# Utility Carts

Save time and your back with a premium heavy-duty utility cart. A John Deere Cart is perfect for hauling rock, soil, mulch, firewood, tools, and much more. The pneumatic tires provide for excellent traction and shock absorption, while the steep tailgate angle and release mechanism make the emptying process a breeze.

**Check out the new John Deere 10PX!**  
The 10PX features a 180-degree full dump angle, ensuring all materials are emptied from the bed every time. The 10PX works great for damp materials, such as leaves, mulch, and dirt. Dumping the bed is easy — just use the simple handle and foot pedal.

Model	Description
LP72978	650 lb. Cap. 180° Poly Cart (10Cu. Ft.)
LP21935	450 lb. Cap. Poly Cart (7 Cu. Ft.)
LPPCT10JD	650 lb. Cap. Poly Cart (10Cu. Ft.)
LPPCT17JD	1,000 lb. Cap. Poly Cart (17Cu. Ft.)
LPPCT17ATJD	1,000 lb. Cap. ATV Poly Cart (17Cu. Ft.)
LPHDC13JD	1,000 lb. Cap. Steel Cart (13Cu. Ft.)

LPUT21JD	1,000 lb. Cap. Steel Cart (21Cu. Ft.)
LP48017	Cart Foot Pedal Kit

See dealer for pricing.

**John Deere Steel Carts** feature a one-piece solid undercarriage and contoured bed corners for excellent performance. Other features include a 45-degree dump angle, zerk grease fittings, and pneumatic tires.

**The John Deere Poly Carts** feature a heavy-duty poly bed that won't dent or rust and are available in 650 lb. and 1000 lb. load capacities. Want to customize for special projects? The beds feature molded channels for adding dividers and side pockets for the addition of bed extensions as needed.

AERATORS

## SPIKE & PLUG AERATORS

Aeration can be an extremely vital element to a healthy lawn as it allows air and water to penetrate built-up grass or lawn thatch, as well as eliminate soil compaction. Available in spike or plug variations, John Deere Aerators feature all-steel construction and treaded pneumatic tires for excellent traction and shock absorption. The John Deere Aerator-Spreader enables you to aerate and spread simultaneously, knocking out two jobs at once.

Model	Description
LPSAT40JD	40" Spike Aerator
LPPA40JD	40" Plug Aerator
LPPA48JD	48" Plug Aerator
LPAS40JD	40" Aerator-Spreader

See dealer for pricing.

# Spreaders

John Deere Spreaders are excellent for year-round use; spread seed, fertilizer, ice melt, and more! John Deere Spreaders come in push, tow, and handheld options so you can find the right spreader for your job. The gears are fully enclosed to prevent corrosion while the no-rust poly construction ensure durability season after season.

The patented directional spread pattern, *Autoflow™*, ensures accurate and precise application and stops material from spreading when the tractor stops. Use year-round to apply seed, fertilizer and lawn chemicals or in the winter to spread sand, salt and other melting agents.

Model	Description
LP35445	5 lb. Hand Held Spreader
LP31340*	50 lb. Pro-Sumer Push Spreader
LP79931*	150 lb. PRO Tow Broadcast Spreader
LPBS36JD	175 lb. Tow Broadcast Spreader
LP79932*	200 lb. PRO Tow Broadcast Spreader
LP35439	125 lb. Select Series Electric Spreader
LP23117	Barrier Shield for Select Series Electric Spreader
*Commercial Quality	

See dealer for pricing.

John Deere Tow Spreaders come in 150, 175 and 200 lb. hopper capacities and feature patented distraction spread pattern technology, Autoflow. Autoflow ensures accurate and precise application, stopping material from spreading when the tractor stops.

The 50 lb. Push Spreader is ideal for spreading seed, fertilizer, and ice melt on smaller properties. The fully enclosed gear box protects the gears, ensuring a long life.

The John Deere Handheld Spreader has a 5 lb. capacity with a funnel shaped hopper that allows material to flow evenly.

## 54" LAWN SWEEPER

With its industry-leading width and max capacity, the John Deere 54" Sweeper leads the way when it comes to easy yard clean-up. An impressive 31 cu. ft. hamper capacity well exceeds the capacity of a bagger, and the 54" working width means less passes to get the job done. The full-length windscreen ensures material is retained when in use, while the dump-cord with T-handle enables you to empty the hamper right from the tractor seat. Featuring an innovative Patent-Pending double-helix brush design, the LP83253 sweeps up debris with unmatched ease; everything from grass clippings to pine needles, to leaves, and more! The largest sweeper in the John Deere line-up also features a 5:1 gear ratio, resulting in a higher tip velocity and generating more force to lift debris up off the ground and into the hamper. Last, when your yard clean-up is complete, the patented self-storing feature allows the unit to be stored upright to minimize required storage space. Get more done in less time with the most efficient sweeper on the market.

Work smarter, not harder with this 54" lawn sweeper. Make quick work of your lawn's leaves without ever picking up a rake.

Model	Description
LPSTS42JD	42" Lawn Sweeper
LP83253	54" Lawn Sweeper

## 36" LAWN ROLLER

Use the tow-behind lawn roller to pack down new sod, seed, and uneven ground. The 36" wide poly drum holds 43 gallons of water and weighs 390 lbs. when full.

Lightweight, durable poly design won't dent or rust and provides for easy storage when empty and not in use. Rounded end caps prevent lawn damage on turns, while the extra-large fill opening makes for easy filling and emptying.

LP23083	Boot Kit - 62" Deck for MC542
LP52039	Hitch Ball Conversion Kit for MC519

See dealer for pricing.

The Material Collection System allows you to pick up grass clippings, and other small yard debris.

This attachment holds up to 75 cu ft heaped or 500 lb and is ideal for hauling topsoil, gravel, sand, firewood, mulch, and more.

## MATERIAL COLLECTION SYSTEM

The MC519 Material Collection System features a heavy-duty 7.5 cu. ft. capacity steel cart and 19-bushel hamper for use with the Power Flow™ blower and chute for collecting grass clippings, leaves, and more.

Additional features include a Quik-Tach hook-up for 15-second installation, gas lift-assist for easy dumping, and angle caster wheels for enhanced maneuverability. The dump angle can be activated right from the tractor seat, and the 500-lb capacity cart can be used separately as needed.

Longer tow bar and dump handle to allow for more clearance between tractor and attachment.

# DETHATCHERS

**Controlling thatch** is one of the most important parts of lawn care. When used on a regular basis, dethatchers reduce excessive thatch build-up that can be damaging to a lawn’s health. Since dethatchers provide gentler, less aggressive action than a power rake, they can be used as a preventative maintenance tool each time a lawn is mowed.

John Deere provides dethatcher extensions and kits, as well as the tow-behind Thatcherator. The Thatcherator includes three operating modes: transport, dethatch, and scarify. The two rows of individually flexing tines provide for maximum thatch extraction, while the pneumatic wheels provide for traction and shock absorption.

Model	Description
LPTA40JD	40” Thatcherator
LP42108	42” Dethatcher Kit for Sweeper
LP48004	38” Front Thatcher
LP48003	Front Thatcher Extension - 8”
LP48005	Front Thatcher Mounting Frame for X300 / X500
LP47977	Front Thatcher Mounting Frame for X700 Series
LP83252	48” Front Mount Z-Thatcher

GROUND ENGAGING

Brinly's line of ground-engaging garden attachments includes top-of-the-line tools to help with everything from plowing your garden to clearing snow and gravel.

Most have heard of the legendary Brinly plow, but our comprehensive line also features a disc harrow, rear blade, cultivator, and box scraper. All of Brinly's tractor attachments are built to fit your sleeve hitch, meaning you can achieve the results you want right from the seat of your tractor. Attach the garden cultivator to remove weeds and loosen dirt, or use the disc harrow to ensure perfectly smooth, uniform soil. No matter the job, we have the powerful ground-engaging tool to get it done.

Model	Description
LPCC55	Cultivator, Sleeve Hitch
LPBB56	42" Rear Blade, Sleeve Hitch
LPDD55	Disk Harrow, Sleeve Hitch
LPBS38	38" Box Scraper, Sleeve Hitch
LP31357	Integral Hitch, X500
LPPP510	Moldboard Plow, Sleeve Hitch
LP66661	Power Integral Hitch

Use the Brinly Disc Harrow to break up rough, plowed ground effortlessly.

The Brinly Cultivator removes weeds and loosens soil between newly planted rows.

The Brinly Rear Blade is perfect for leveling dirt and sand, moving gravel and mulch, and clearing snow from side walks and driveways.
